

Suren L. Kharatyan

Head of Macrokinetics of Solid State Reactions Laboratory
A.B. Nalbandyan Institute of Chemical Physics (IChPh) NAS RA
5/2, P. Sevak str., 0014, Yerevan, Armenia
Tel.: (+374 55) 583 519; +374 91 58 35 19; +374 10 62 35 91
E-mail: suren@ichph.sci.am; kharatyan.ichph@gmail.com

1. Citizenship Armenia
Date of birth September 01, 1948

2. Education, academic degree, title

- Yerevan State University, 1971
- Candidate of Sciences (Chemistry), 1977 (Institute of Chemical Physics NAS RA)
- Doctor of Sciences (Phys.-Math.), 1995 (Institute of Structural Macrokinetics RAS)
- Professor, 2006
- Corr. member of NAS RA, 2010

3. Promotion

- Head of research group Thermodynamics & Kinetics of SHS Processes, Institute of Chemical Physics NAS RA, 1977-1982
- Head of Kinetics of SHS Processes Laboratory, Institute of Chemical Physics NAS of Armenia, since 1982
- Head of Chemical Physics Department, YSU, 2002-2007
- Professor, Inorganic & analytical chemistry department YSU, 2007-2021

4. Research interests

- Macrokinetics of high temperature solid state reactions,
- Self-propagating high-temperature synthesis (SHS),
- Chemically activated combustion processes,
- Materials science and technology of inorganic materials,
- Reaction diffusion theory and mathematical modeling.

5. Course of lectures given at the Faculty of Chemistry, YSU

- Macrokinetics,
- Theory of combustion & Explosion,
- Solid state chemistry,
- Theory of reactive diffusion,
- Chemical technology,
- Crystall chemistry,
- Thermodynamics of combustion processes,
- Technological combustion processes in chemistry and metallurgy

6. Membership

Member of Intern. Institute of Combustion, since 1991;
Member of editorial board of the International Journal of Self-Propagating High-Temperature Synthesis since 1999 (Allerton Press, New York)
Member of editorial board of the Chemical Journal of Armenia & deputy editor since 2008

Member of organizing committee of all 15 Intern. Symposium's on SHS (1991-2019)
 Member of organizing committee of Intern. Ceramic Congresses CIMTEC, Italy - 2010, 2014, 2016, 2018, 2022
 Member of Council of Founders of the "International Association on Self-Propagating High-Temperature Synthesis", 2002;
 Member of Council of Founders and executive director of the Fund "Combustion Synthesis and Materials Science", since 2004.

7. Prizes

1999	V. Hambartsumyan Achievement Award for outstanding contribution to the field of combustion physics
2007	Diploma and jubilee medal of the SHS International Association and Chernogolovka's Scientific Center RAS for contribution to science and education
2008	President award of the Republic of Armenia in Natural Sciences

8. Awards

1999-2001	INTAS Award. Development of Scientific Bases of Activated Combustion and Methodologies of Self-Propagating High-Temperature Synthesis (SHS) of Composite Materials Reinforced by SiC Whiskers
2001	ANSEF Award. Processing of Mineral Raw Materials by Application of Advanced Solid Combustion Technology
2000-2002	CRDF Award. Mechanically and chemically activated combustion synthesis of silicon and titanium-based nitride composites for thin film application.
2001-2003	INCO-Copernicus 2. Silicon Nitride based Laminar and Functionally Graded Ceramic Composites for Engineering Application.
2003-2004	NFSAT/CRDF- Award. Kinetics of Rapid High-Temperature Reactions in Gasless Systems: Non-Isothermal Conditions.
2011-2013	11_1d167 SCS grant, "Obtaining nanopowders of refractory metals (W, Mo) by metallothermic reduction of salts"
2013-2015	13_1D192 SCS grant, "Mo-Cu nanocomposite materials. Combustion synthesis and characterization"
2013-2015	13RF-057 SCS grant, "Kinetics of High-temperature Heterogeneous Reactions in the Mechanically Activated Systems"
2015-2016	A-2123 ISTC grant, "Combustion synthesis of W-Cu nanocomposite materials and characterization"
2015-2017	15T-1D196 SCS grant "Solution combustion synthesis of nanoscale non-oxide catalytic systems and characterization. Molybdenum carbide as an example"
2018-2020	18T-1D051 SCS grant "Non-isothermal kinetics of solid-phase reactions. The effect of heating rate"

9. Scholarship: 16 PhD, more than 30 master degree, more than 50 diploma work

10. Publications: more than 300 papers, more than 50 presentations in Intern. conferences, 12 Invention certificates, 1 US patent
